

Biotech North and BioStruct

invites you to

Lunch Seminar 17.09.12

11.00 - 12.30, Linken, Forskningsparken, Tromsø

A meeting place for industry and academia

This is the third lunch seminar in a serie of activities that are arranged in collaboration between the cluster of biotechnology companies in Tromsø - Biotech North, and the The Norwegian PhD school in Structural Biology - BioStruct. This will take place in the new common arena for industry and academia in Tromsø, Barents BioCenter (BBC).

The lunch seminar is open for everybody (Master- and PhD students, researchers, technicians... from both industry and academia).

Lunch is FREE for all participants!

Deadline for registration: 12. 09.12 to Ernst Kloosterman, Biotech North
Mail: Ernst@nfr.no (Register with your name and affiliation)

Programme 11.00 - 12.30

- Welcome – BioTech North and Biostruct
- Company presentations:

Biotec BetaGlucans AS - Rolf Engstad (Chief Scientific Officer)

‘Development of Woulgan Biogel as a wound healing product’

Biotec BetaGlucans AS is a wholly owned subsidiary of Biotec Pharmacon, which develops and manufactures immune modulating compounds for the human health sectors.

Scandiderma AS - Ragnhild Dragøy Whitaker (Senior Scientist)

’Skin bioprospecting for the development of novel cosmoceutical products’

ScandiDerma AS is a company that focuses on arctic marine and terrestrial bioprospecting with the aim of sourcing novel bioactive compounds for use in the ingredients industry.

- Lunch

Note !BioStruct covers the costs for travel and accommodation for BioStruct students participating. For information contact Vibeke Os, biostruct@uit.no, <http://biostruct.uit.no>

Norwegian Graduate school in Structural Biology -A collaboration between 5 universities
