

10th Lunch Seminar 26.02.15

12:00-12:45 Kristine Bonnevie's House, Blidern – Seminar room 3213

Life after PhD - Where do people work?

The PhD-forum at the Department of Biosciences in collaboration with Biostruct invites to a spring seminar-series about life after the PhD. People that have taken a PhD in life science, and now work outside of academia come and tell about their experience. What have they done after the PhD, where do they work, and how did they end up there? What kind of skills apart from the scientific background has been valuable to them?

Program:

12:00 Welcome - coffee and cake
12:15 - 12:45 Talk by **Toril Line Kongsrud**,
Nydalen Videregående Skole

Toril Line Kongsrud jobbet som PhD-student fra 1997-2002 hos Odd Stokke Gabrielsen innen biokjemi/molekylærbiologi. Etter å ha bodd tre år i Frankrike med sin familie reiste hun tilbake til Norge og tok PPU-studiet på deltid. Siden da har hun vært lærer på flere videregående skoler deriblant Strømmen vgs, Persbråten vgs og Grefsen vgs. Fra og med 2011 har hun jobbet på Nydalen vgs som seksjonsleder i realfag og underviser i matematikk, naturfag og kjemi.

The seminar today will be held in Norwegian.

The talk is open for all interested participants and we encourage our master students to come. Coffee and cakes will be served from 12.00.

Register to Bie Ekblad (bie.ekblad@ibv.uio.no) by **Friday 20th February 2015** and mark the email with "BioStruct lunch seminar 26.02.15" in the subject line.
