

Biotech North and **BioStruct** invite you to

## Lunch Seminar Thursdag June 2, 2016

11.00 - 13.00, Linken, Forskningsparken, Tromsø

NJORTH  
BIO\_

Akvaplan  
niva

### A meeting place for industry and academia

This is the 9th lunch seminar in a series of activities that is arranged in a collaboration between the cluster of biotechnology companies in Tromsø - **Biotech North** - and the Norwegian PhD School in Structural Biology - **BioStruct**.

The aim of this event is to promote closer relations between academia and business activities in the Tromsø area. The lunch seminar is open for everybody: master- and PhD students, researchers, and technicians from both industry and academia.

**Lunch is FREE for all registered participants!**

Deadline for registration: **Friday May 27 12:00** to Maarten Beerepoot, BioStruct (biostruct@uit.no). Register with your name and affiliation and any dietary requirements.

#### Program

**11:00 – 11:15** Welcome by BioStruct and Biotech North

**11:15 – 11:45** Talk by **Jan Buch Andersen, CEO**  
- **Njorth Bio\_ AS**

*Your bridge from academia to industry. Working with scientists to take innovative ideas to the market.*

Njorth Bio's mission is to support commercial development of innovative bio-based ideas, by setting up the company, adding our experiences from science, finance and market, to accelerate the process from research through product maturation to sales.

**11:45 – 12:15** Talk by **Ingar Halvorsen Wasbotten, Senior Advisor**  
- **Akvaplan-niva AS**

*Akvaplan-niva – Creating Value and Awareness Through Science*

Akvaplan-niva integrates research, decision support and technical innovation to secure economic value and safe environmental operations for business, authorities, and other clients worldwide.

**12:15 – 13:00** Lunch in Forskningsparken (Fish soup).

**Norwegian Graduate school in Structural Biology - A collaboration between 5 universities**
