Visible to Candidates

Title	Post-Doctoral Fellow Clinical Epidemiology
School	Harvard T.H. Chan School of Public Health
Department/Area	Epidemiology The Department of Epidemiology at the Harvard T.H. Chan School of Public Health (HSPH) invites applications from candidates for a postdoctoral fellowship in Clinical Epidemiology.
Position Description	<p>The successful candidate will contribute to expanding the department's role as a center for clinical epidemiologic research and training. Areas of interest include prognosis research and methods development, comparative-effectiveness research, patient-centered outcomes research, and evidence-based practice. The successful candidate will facilitate departmental engagement in these areas with similar efforts within the Harvard Chan School, Harvard Medical School, and Harvard teaching hospitals. He or she will be expected to conduct empirical research in clinical epidemiology and to participate actively in teaching and in the direction of training programs in this area.</p> <p>Candidates should preferably hold a medical degree, as well as graduate-level training in epidemiology or substantial experience with the application or development of epidemiologic methods in clinical research. The ideal candidate will have demonstrated excellence in research and teaching in the field of clinical epidemiology.</p>
