

Invitation to EcoRus workshop

1st June 2010

Workshop title:

Changes in northern ecosystem services: what is the importance for resource-dependent communities?

Project leader: Dr. Vera H. Hausner

Invited researchers:

Professor F. Stuart Chapin, University of Alaska. Chapin has worked with ecosystem services in northern regions. He is currently the president of the Ecological Society of America.

Professor Richard Stedman, Cornell University, USA, works with natural resources and environmental sociology

Dr. Konstantin Klovov, Saint Petersburg State University, has together with *Johnny-Leo Jernsletten (PostDoc UiTø)* previously compiled and analyzed data on indigenous people and natural resources in circumpolar regions

Professor Rolf A. Ims, University of Tromsø, is the project leader of Ecosystem Finnmark, which is an interdisciplinary project in the interface of ecology and social sciences
